TDx01D232H Series

MORNSUN®

Single high speed RS232 isolated transceiver

RoHS

FEATURES

- Products meet EIA/TIA-232-F standard
- High baud rate of up to 115200bps
- Isolation test voltage: 3000 VDC
- Integrated isolated DC/DC converter
- Operating ambient temperature range: -40°C to +85°C
- Enhanced EMC performance with recommended external circuit
- UL62368 approval

The TD301D232H/TD501D232H series of isolated single high speed 232 transceivers are all-in-one modules with isolated power supply, isolated signal and RS232 transceiver chip integrated in one RS232 interface solution. The main products function is to switch from logic level to 232 protocols level and achieving signal isolation and the product features a constant-voltage source isolated power supply which withstands a test voltage of 3000 VDC. The products also can easily be embedded in the user's end equipment, to achieve fully functional RS232 protocols network connections.

Application Precautions

- 1. Carefully read and follow the instructions before use; contact our technical support if you have any question;
- 2. Do not use the product in hazardous areas;
- 3. Use only DC power supply source for this product. 220VAC power supply is prohibited;
- 4. Hot-swap is not supported;
- 5. If the external input of TXD is insufficient, the pull-up resistor should be added according to the situation;
- 6. It is strictly forbidden to disassemble the product privately in order to avoid product failure or malfunction.

After-sales service

- 1. Factory inspection and quality control are strictly enforced before shipping any product; please contact your local representative or our technical support if you experience any abnormal operation or possible failure of the module;
- 2. The products have a 3-year warranty period, from the date of shipment. The product will be repaired or exchanged free of charge within the warranty period for any quality problem that occurs under normal use.

Applied circuit

See Application Notes for Isolated Transmitter for details.

Notes:

- 1. For additional information on Product Packaging please refer to www.mornsun-power.com. The Packaging bag number: 58040012;
- 2. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 3. All index testing methods in this datasheet are based on company corporate standards;
- 4. The above are the performance indicators of the product models listed in this datasheet. Some indicators of non-standard models will exceed the above requirements. For details, please contact our technical staff;
- 5. We can provide product customization service, please contact our technicians directly for specific information;
- 6. Products are related to laws and regulations: see "Features" and "EMC";
- 7. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
